Qualifications Summary

Ambitious IT student who is ready to learn more and gain real-world experience in software development. Has a strong interest in software engineering. Knowledgeable in using programming languages like Python, Java, and JavaScript, with a focus on web development and basic application design. Knowledgeable in troubleshooting and problem-solving, and actively working on personal and academic projects to enhance technical proficiency. Looking forward to applying my growing expertise in IT and software development in a collaborative environment, while continuously learning and contributing to innovative projects.

Professional Skills & Competencies

Digital Design

As an IT student, I have hands-on experience in UI/UX design and responsive design, crafting user-friendly interfaces for web and mobile applications. Experienced in wireframing and prototyping using tools like Figma and Adobe XD.

Computer Network Troubleshooting

Developed strong skills in diagnosing and resolving network issues. Have experience in network protocols and configurations, I can troubleshoot connectivity problems, perform ping tests, and analyze network traffic.

Data Structures & Algorithms

Understanding of foundational algorithms and data structures, which are crucial for problem-solving

Debugging & Testing

Skills in identifying and fixing bugs, as well as writing test cases to ensure the reliability of code.

Attention to Detail

I prioritize precision in coding, troubleshooting, and testing, ensuring that my projects are high-quality and free of errors. This focus on detail helps me develop robust solutions and enhances my problem-solving skills.

Time Management

Balancing coursework, projects, and possibly part-time work, demonstrating the ability to prioritize and handle multiple responsibilities.

Adaptability

Willingness to learn new technologies and adapt to changing tools or processes, crucial in the fast-evolving field of IT and software development.

Work Experience

Digital Art Freelancing

February 2021 - (current)

As a student, I freelance in digital art, creating custom artwork and providing editing services for clients such as my fellow students. Proficient in Canva, Picsart and other editing apps, I focus on delivering high-quality designs while honing my artistic skills. This experience has enhanced my time management and client communication abilities.

Projects

Web Development : Library Website Project

Created a personal responsive library website using HTML, CSS, and JavaScript. Developed a user-friendly interface for browsing the catalog and searching for books.

Skills

- Programming Languages: Python, Java, C, C#, JavaScript (basic knowledge)
- Web Development: HTML, CSS, JavaScript (basic knowledge)
- Digital Design
- Computer Network Troubleshooting
- Data Structures & Algorithms
- Debugging & Testing
- Problem-Solving & Communication
- Teamwork & Project Management
- Attention to Detail & Time Management
- Adaptability & Critical Thinking

Certifications

- Electronic Products Assembly And Servicing (EPAS) NCII (August, 2024)

Education

- **BSIT Major in Web and App Development**
Kings College of The Philippines
2021-2022
Pico Road, La Trinidad, Philippines, 2601
- **Bachelor in Library and Information Science**
Benguet State University
2022-2023
La Trinidad, Benguet, Philippines, 2601
- **3-Yr. Diploma in Information Technology**
Blue Phenix Skills Training Center Corp.
2023- (current)
22 Camella St. Upper Q.M., Baguio City, Philippines, 2600

Language

Filipino
English
